FAMIGLIA CANTONI

## WHERE WE ARE

Fibbiano is located in the heart of the Pisan Hills, nestled between the Tyrrhenian Sea and the Era River.

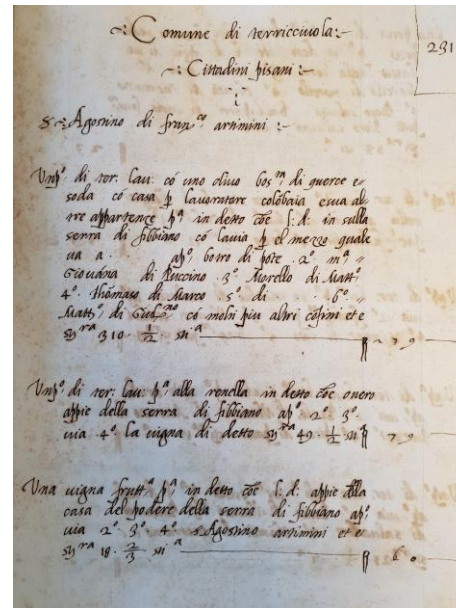

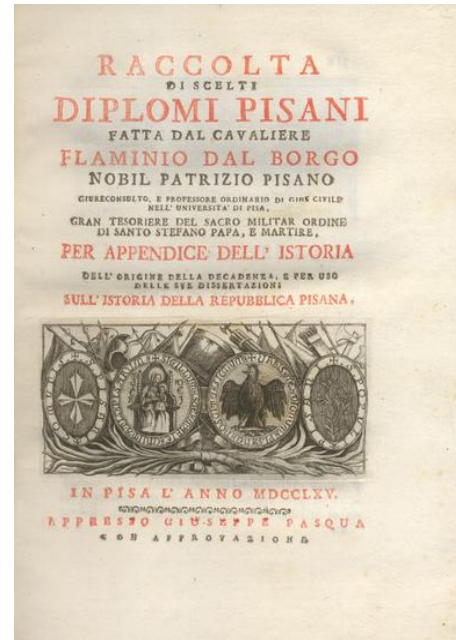

**FIBBIANO**  
FAMIGLIA CANTONI

Our history dates back a long time.

Handwritten documents in the State Archives of Pisa reveal that as early as 1560, Fibbiano was recognized as a thriving farm where vines were cultivated. It was owned by Agostino di Francesco Artimini from Peccioli, who was a citizen of Pisa. Within our property, there are two Etruscan tombs, showcasing the ancient presence in the area. The Etruscans were already engaged in wine production during that time.

## TERROIR

The history of the Pisan Hills goes back to distant geological eras when the continents underwent dramatic shifts, collisions, subsidence, and uplift, leading to the current landscape of the Monti Pisani being below sea level. During the Pliocene, sand rich in shells and mollusks accumulated on the seabed that once covered much of Tuscany.

These shells are now found in our vineyards and throughout the Pisan Hills, enriching our soils with minerals and fossil substances that impart a unique character to our wines.

## OUR VALUES: HERITAGE

For us, winemaking is about carrying on a heritage that has deep roots. The vine serves as a tool through which humans give voice to a territory, creating a harmonious balance.

We have been farmers for many generations and have always believed in the power of the land.

## OUR VALUES: RESPECT FOR THE TERRITORY

Tuscany has enchanted and embraced us. Since 1997, our family has devoted itself wholeheartedly to this land.

We are Custodian Growers of ancient varieties, certified organic since 2018 and energy self-sufficient.

## OUR VALUES: PEOPLE

We are a company built on the  
foundation of people,  
with wine as our beating heart.

# CHASING THE DREAM OF INDIGENOUS GRAPE VARIETIES

We have always been committed to recovering abandoned or forgotten grape varieties that are part of the winemaking heritage of Pisa and Tuscany. These varieties represent the history, voice, and essence of the land.

To this end, with the assistance of university research groups, we analyzed our centuries-old vineyard “Ceppatella”; from which we selected the mother plants for all the existing vineyards on our estate:

- Sangiovese
- Canaiolo
- Ciliegiolo
- Sanforte
- Colombana
- Vermentino
